

LGBTQ Visibility in the Early Years

As RECEs, we value providing a safe and nurturing environment for all children. However, even the most well-intentioned educator might struggle with how to approach LGBTQ (lesbian, gay, bisexual, transgender, queer/questioning) families and topics in the classroom. This dynamic and interactive workshop is designed to build the confidence and comfort level of educators seeking to create a more inclusive classroom. We will cover topics such as our early beliefs and how they impact us, appropriate terminology, how to creatively use family diversity resources to plant seeds of acceptance, and practical ways to embrace teachable moments about gender and family diversity in age-appropriate ways. All participants will receive a resource package, a door prize ticket and Skittles. ☺

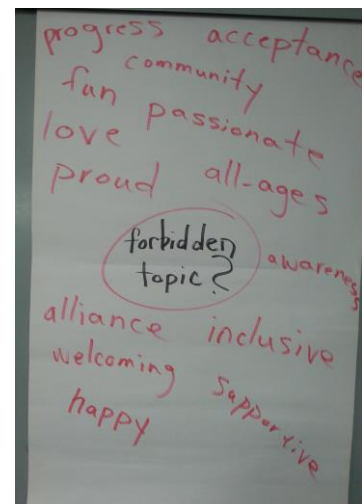

“She was knowledgeable & professional & made the workshop a positive experience for all participants.”
Conestoga College Feedback

Shelley Secrett has enjoyed working as a RECE for 12 years. She has taught at Conestoga College and has been published in Interaction magazine. She is also a rainbow stepmother to one extremely cute little boy!
